KYDEX LLC. sales team will help you to determine the best grade of KYDEX for your application. The KYDEX designLab™ will then turn your color matches in 1 week or less.

From product choice, color match and production to your production floor in 4 weeks. We help our customers provide quality KYDEX finished product to their customers as quick as possible. Sheet thickness from .028" to .500; and up to 80" wide. All with 600# minimum run for customs.

Please contact me at anytime to help you with your market development efforts for KYDEX materials. We also have a trained staff to help you with specific market efforts.
